

# CHRISTMAS TREE GARLAND

This very simple and fun activity will see your halls decked in no time!

You will need a long piece of string, green wool (or blue if you fancy being a bit alternative!) strong glue, scissors, a needle, and craft stars.

Step 1: Wrap the wool around the palm of your hand as many times as you wish.

Step 2: Using a smaller piece of wool tie this together at one end so it does not unravel.

★

Step 3: Using a third piece of wool loop and tie this around the end you have tied together so it looks like this.

Step 4: Repeat steps 1 and 2 for another two pieces.

Step 5: Cut the bottom of all 3 pieces.

★

Step 6: Glue these pieces together, one on top of the other, making sure your first piece goes at the top. You will have to wait for these to dry properly.

Step 7: Once dry trim with scissors.

Step 8. Glue on your small stars to your christmas tree as you wish, using one big star for the top of the tree. Set aside to dry.

Once everything is dry use a needle to thread the string through your christmas trees. Make sure they are evenly spaced. You can add more stars inbetween the trees if you wish.

Step 9:

Once you are happy with everything find a place to hang your garland!

Merry Christmas!
